LORENZO BARROSO

# The World's First and Only Double Clipper and Hydraulic Stuffer Combination

K4-90 Fully Auto Double Clipper

PQ-360 Clipper Drive

FC Stuffer

Finally, the speed and portion accuracy of a Double Clipper connected to a HYDRAULIC Piston Stuffer. Designed for the small to medium sized processor who may not have or need an expensive vacuum filler, the Mainca PQ-360 connects an affordable Hydraulic Stuffer to the high performance clipping power of a Lorenzo Barroso Double Clipper. The Mainca PQ-360 will interface to either the K4 series of Fully Automatic Double Clippers or the SK series of Semi Automatic Double Clippers. The Mainca PQ-360 "Clipper Drive" automatically portions as it controls the Double Clipper for production speeds of up to 30 chubs per minute\*.

\*Depends on product mix, stuffer model and chub size.

## Up to 6 Times Faster than Hand Chubbing

From Ground Meat Chubs and String-tied Summer Sausage to Ring Bologna and wholesale Chub Packs, the team of Lorenzo Barroso and Mainca USA has you securely clipped...

PQ-360 Shown with SK4-90 Semi Auto Double Clipper

The convenience of Shirred Casings (plastic, fibrous or collagen) and the options of Clips-on-a-Stick or Clips-on-a-Spool plus auto Loop Application, provide the features you need to maximize your production speed.
